

Sprint 2 Report

Things that worked:

- Group Code review
- Group discussion

Things that did not work:

- Find time when everyone is available
- Midterms/School schedules
- Room reservations

Things to start doing:

- Try Mob programming.
- Reserve citrix rooms.
- Discussion board of some sort.
- Doodle Schedule for next scrum meeting.
- Get "Chem Draw".
- Topic specific meetings with IBM.
- Start doing burn-down instead of burn-up.

Things to keep doing:

- Arrange calls with Igor about OSRAxc
- Have in-person meetings on a regular basis

Things to stop doing:

- Nothing

Progress:

User Stories Completed:
As a Developer, I need to understand the POTRACE library, so I can understand how to leverage it and work around it.
User Stories in Progress:
As a Developer, I need a testing environment and test documentation, so I can better contribute to the codebase.
As a Developer, I need to understand SMILES notation and .SD file structure, so I can design the smile data structure.
As a User, I want to have a data structure for encoding polymers in "Smile Notation", so I can work with polymers.
As a Developer, I need to have an x32 based development environment, so I can modify, compile, and test the application.
User Stories not Started:
As a Developer, I need to understand the OpenBable library, so I can understand how to leverage it and work around it.
