

Sprint 3 Report

Things that worked:

- Group Code review
- Group discussion
- Mob Programing/Design

Things that did not work:

- Nothing came up

Things to start doing:

- Start doing burn-down instead of burn-up.

Things to keep doing:

- Arrange calls with Igor about OSRAxc
- Have in-person meetings on a regular basis
- Mob Programing

Things to stop doing:

- Nothing

Progress:

| |
|---|
| User Stories Completed: |
| As a Developer, I need a testing environment and test documentation, so I can better contribute to the codebase. |
| As a User, I want to have a data structure for encoding polymers in "Smile Notation", so I can work with polymers. |
| As a Developer, I need to understand the POTRACE library, so I can understand how to leverage it and work around it. |
| As a Developer, I need to have a x32 based development environment, so I can modify, compile, and test the application. |
| User Stories in Progress: |
| As a Developer, I need to understand SMILES notation and .SD file structure, so I can design the smile data structure. |
| As a Developer, I need to understand the OpenBable library, so I can understand how to leverage it and work around it. |
